

**Classes Presented By Sweden Farmers Museum
4988 Lake Road South**

APRIL 20 Perennial Gardening

This seminar covers the key considerations in planning and constructing a perennial garden. It also covers a historical perspective on perennial gardening.

MAY 25 Creating a Bird Habitat in Your Backyard

Would you like to encourage birds to make a home in your backyard? With just a little knowledge, time and effort, you can transform your yard into a beautiful bird sanctuary no matter the size of your property. Come learn how easy it is to add some colorful songbirds to your backyard.

JUNE 15 Invasive Plants in New York Gardens

This presentation will cover what an invasive plant is, which invasives you are likely to find in your garden as weeds, how you can control them, NYS's regulations for invasives, and which common garden landscape pests are now considered invasive. It will also provide suggestions for replacing them with native plants

Fee \$5/Program **Online registration available at**
