

## **Snowplowing of Roads and Sidewalks**

During the winter months the Town of Sweden has 161 miles of road and turning lanes to be kept clear of snow and ice as follows:

Town Roads	57 miles
Monroe County Roads	64 miles
New York State Roads	40 miles

Our priority during a snow event is to keep the roads free and clear of snow & ice. After we feel the roads are safe, we focus on cleaning the snow from the sidewalks.

Please be aware that all Town of Sweden Parking Rules should be followed, and that no person shall park a vehicle on any road or in any town municipal parking lot between the hours of 2am and 6am from November 15<sup>th</sup> through April 15<sup>th</sup> to facilitate ease of snow and ice removal from those areas.
